Want to Dive in Quebec?

As many of you already know, if you want to dive in Quebec, you require a separate Quebec certification from the *Fédération Québécoise des Activités Subaquatiques (FQAS)*. The FQAS certification is good for a three year period after which it must be renewed through a new FQAS course, a program of continuing education or by divers providing evidence of making 10 dives in Quebec-like conditions in the past three years.

On May 19, 2010, join some of the FQAS certified instructors at Kanata Diving Supply who will be offering FQAS Class B certifications to PADI Advanced Divers meeting FQAS requirements. Please note that in some cases, divers without the required dives will be required to make those dives before being certified. Call the store to book your course and to ask about the costs.

Bar-B-Q, Saturday,

Once again this year, we'll be having a Bar-B-Q on Saturday, April 10. Hamburgers, Veggie Burgers, hot dogs and drinks at reasonable prices. Proceeds will go to Freedom at Depth. Please come out and support a good cause.

New Flip Fins Now in Stock

Flipfins™ are award-winning, patented, high-performance fins that make getting in and out of the water effortless. These fins make walking, climbing boat ladders, moving gear, and airborne water entries as easy as when you're wearing ordinary shoes. Flipfins are used by thousands of dive professionals, Military, Navy, Special Forces, float tube and kick-boat fishermen, and Rescue and Commercial divers around the world.

Come in and try them!

Wednesday Night Dives for 2010

Our Wet Wednesday dive program gives new divers a chance to get out and dive with people that have a little more experience. It's a good introduction to some of the more popular dive sites in the area. One of our Divemasters will give you an orientation to the site and buddy you up if you need someone to dive with. Hope to see you in the water meeting new people and having fun!!!

Complete rental packages for Wet Wednesdays are available for \$ 40.00 plus tax
